FEATURES

Thank you for purchasing the Dorcy Wireless LED Motion Flood-Lite. We are committed to eliminating darkness by using the latest in light-emitting diodes (LED's). LED's are the most efficient and durable light sources available. We are certain that your Flood-Lite will contribute to a safer environment and provide light where you need it at a very reasonable cost.

ENCLOSED YOU WILL FIND:

- Wireless LED Motion Flood-Lite
- Mounting Base
- 3 Screws and 2 Anchors

Motion Sensor Activated – You can set the on-time of the light at 30 seconds or 2 minutes. Light shuts off automatically if no motion is detected.

Light Sensor – Wireless LED Motion Flood-Lite goes on only in darkness to conserve battery life.

2 Brightness Settings – Choose “High” for maximum light, and “Low” for maximum battery life.

Fully Adjustable – Wireless LED Motion Flood-Lite can be rotated 360° as well as up and down.

WARNING

- Use only new alkaline or lithium D-Cell batteries with 1.5V rating. Do not mix old and new batteries. Install batteries with polarity in correct position.
- Follow battery instructions for proper disposal and cautions.
- Mount fixture securely with included screws, and use anchors if not securing to solid wood or other solid material. **Use the third screw if mounting Flood-Lite upside down!**

INSTALLATION INSTRUCTIONS

BEFORE YOU MOUNT YOUR FLOOD-LITE

Illustration 2

Illustration 3a

Illustration 3b

Illustration 4

1. Remove front cover of Flood-Lite by rotating counter-clockwise as shown in **Illustration 1a** to reveal controls and battery holders. Insert 3 D-Cell Batteries into Flood-Lite as shown in **Illustration 2**.

2. Set your automatic shut-off time to 30 seconds or 2 minutes (**Illustration 3a**). **NOTE:** Light will stay on as long as motion is detected. **We recommend 30 seconds.**

3. Set your brightness to “Low” or “High” (**Illustration 3b**). Note: High will provide the equivalent light of a 25W incandescent bulb. **Match arrows then turn cover clockwise (Illustration 4).**

NOTE: Please use only new alkaline or lithium D-Cell batteries with 1.5V rating. Do not mix old and new batteries. Install batteries with polarity in correct position as shown. **Flood-Lite only goes on in complete darkness! Test in a dark room or drawer.**

MOUNTING YOUR FLOOD-LITE

Illustration 5

Determine location for mounting Flood-Lite. **NOTE: FOR BEST PERFORMANCE, FLOOD-LITE SHOULD BE POSITIONED SO MOTION SENSOR IS ON TOP AND LIGHT IS ON BOTTOM.** Use template (above) to mark two holes for anchors and/or screws (included) as shown in **Illustration 5**. **NOTE:** Flood-Lite can be rotated 360°, so screws can be mounted in any position. We recommend mounting the screws parallel to the ground if mounting on a vertical surface. Make sure that screws are precise distance from each other as configured in template (2-

Illustration 6

Attach Mounting Base to screws as shown in **Illustration 6**. Slide Mounting Base down so screws are securely held by track. If using anchors, use 3/16” drill bit to drill holes and insert anchors. Drive screws into anchors so that screw head protrudes 1/8” from surface (the height of the screw head). If using screws only, use 1/8” drill bit to drill holes and insert screws so that screw head protrudes 1/8” from surface (the height of the screw head). Drive large screw through center hole as shown in **Illustration 7**.

Illustration 7

Illustration 8

To attach Flood-Lite to Mounting Base, align holes then insert and tighten thumb screw (**Illustration 8**). To adjust Flood-Lite direction, loosen smaller thumbscrew on Mounting Base and rotate Flood-Lite to proper direction as shown in **Illustration 9**. Tighten thumbscrew.

Illustration 9

Loosen larger thumbscrew that connects Flood-Lite Head to Mounting Base and adjust Flood-Lite Head to proper direction as shown in **Illustration 10**. Tighten thumbscrew.
